The Fisk Jubilee Singers.

The world famous Fisk Jubilee Singers will be at the Opera House Tuesday night, April 19, for one night only. The Fisk Jubilee Singers organized in 1871, and have traveled many times around the world. Of the original members only one is singing today—Maggie Porter, now Mrs. Cole. But during the many changes in the personnel of the company, enough of the old stock remained to lift the membership up to the company's high standard of work. While arranging programs of contrasts, with touches of brightness here and there, the Fisk Jubilee Singers have steadfastly adhered to their original purpose, to cater only to good taste, and to perpetuate no travesty on the work which gave the first sensible impulse to Fisk University's useful career; hence they have resisted all persuasions to introduce negro minstrelsy and sketch-work into their concerts. Remember that these are the original Fisk Jubilee Singers. They will appear here under the auspices of the Epworth League of the M. E. Church.

Judge Brown has so far recovered from his recent illness as to be at his office again.

Duncan Is All

EXCITED

Over Coal Discovery

JIM PARKS, SHERIFF OF GRAHAM COUNTY, AND GUS HOBBS ARE THE DISCOVERERS.

Coal Shows Distinctly Sulphur—Makes a Much Better Smelter Than Discovery Near Morenci—Was Prospected Eight Years Ago for Coal, But Abandoned.

Excitement wages high in Duncan this week over the discovery of fine specimens of coal by Sheriff Jim Parks and Gus Hobbs. The discovery was made near Riley Springs about ten miles from Duncan and the specimens brought in by Gus Hobbs are far superior in formation and size to anything ever found on the Molder field.

The coal shows distinct sulphur and will readily burn. Specimens found were only one foot under ground and though they crumble to a certain extent they are far better specimens than any ever found near Morenci. The ground has been located for several miles and the original locaters are firm in the belief that they have made a wonderful discovery. Gus Hobbs arrived in Morenci on last night's train and caused no little havoc by displaying his box of samples before a group of men. He will await the arrival of Supt. Mills before doing anything further with the property, and will endeavor to interest the company in the project.

When questioned by a representative of El Otero concerning the extent of the field, Mr. Hobbs said: "There is no doubt in my mind that we have struck a bonanza and from the surface indications the coal is not confined to any one locality but

THE HOLIDAY CARNIVAL.

Given by the Ladies at the Opera House, Opens Most Successfully.

One of the most delightful entertainments which has been provided for the people of Bisbee was that of the opening night of the Holiday Carnival, at the Bisbee Opera House. The auditorium was handsomely decorated for the occasion, and the manner in which the sales ladies at the several booths disposed of their merchandise reminded one of the big department stores in New York. There was this difference, however, and that a great deal more attention was shown to customers, and efforts made to "make sales," than one sees ordinarily in the "really" shops here or elsewhere. There were eight booths, known as the Sapper, Christmas, Halloween, Flower, April Fool, Fourth of July, Easter and Washington's Birthday booths in charge of Mesdames Beck, F. E. Hurst, High, Tester, Shields, Wyman and Scofield. Each of the booths was tastefully arranged and tempting articles were displayed, some of which brought fabulous prices. But the purchaser remembered that he was buying a useful article, and his investment was going to sweet charity. Large numbers visited the carnival during the evening, and enjoyed the program of music furnished specially for the occasion. The delicious articles furnished by Mrs. Beck at the supper table met with a steady demand, and she with her corps of assistants were kept as busy as they could be attending to the wants of those who applied for edibles as "mother used to make them." The carnival will continue another day, so that all may have the opportunity of attending this afternoon and evening, and those who were there can come again.

stretches across the country. We have about two miles long and one-half of a mile wide and there is plenty of ground left in the vicinity which is fully as good as that we have taken up."

"This same piece of ground was prospected for coal eight years ago, but owing to lack of funds the work was discontinued and the field abandoned. Upon the arrival of Mr. Mills we intend to look into the matter thoroughly and will undoubtedly do considerable development work, and we firmly believe that we will open up one of the richest coal districts in the southwest."

Should this pan out as it is thought it might with proper development, it will be of the greatest importance to this entire district and will be a far easier place to operate than the Molder field, as it is only ten miles from Duncan and is accessible by good wagon road all the way.

Business will be rushing on the A. & N. M. during the next few days carrying prospectors to the field.—El Otero.

Supt. Walter Douglas went down to Douglas yesterday.

N. E. Ferguson of the Braun-Ferguson Drug company of Los Angeles was in Bisbee yesterday from El Paso where the company also has two stores.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. HOW TO WARD OFF AN ATTACK OF RHEUMATISM.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Virginia. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." For sale by all druggists.
